# Why upgrade
# to the HC25/HC55?

Regardless of the task or where the job is, the HC25 and HC55 healthcare mobile computers provide everything workers need to do more in less time and provide better patient care and patient outcomes.

## HC25

## HC55

## Introducing a new generation of healthcare mobility with many new features:

- Ergonomics for all-day comfort
- More power
- Waterproof
- Advanced AI audio
- A larger display

- Fastest Wi-Fi available
- 5G/Private 5G
- Advanced scanning[1]
- More tools to secure devices and optimize availability

# What do you get when you upgrade from the TC26-HC to the HC25/HC55? More features to boost productivity and care quality.

| FEATURE | TC26-HC | HC25/HC55 | HC25/HC55 BENEFIT |
|---|---|---|---|
| **SLEEKER, MORE RUGGED FORM FACTOR** | | | |
| **Sleek and ergonomic design** | Depth: 0.54 in (13.7mm) <br><br> Housing: Healthcare white | Depth: 0.49 in (12.5mm) <br><br> Housing: Healthcare blue and white with advanced ergonomics | The HC25/HC55 is 10% thinner than the TC26-HC. A new modern design reduces pressure points and provides a secure grip and all day comfort for any size hand. |
| **Display** | 5 in HD (1280 x 720) | 6 in FHD+ (2160 x 1080) | With 20% more display space, workers can view more information with less scrolling. |
| **Environmental** | IP67 sealing; <br> 300 tumbles @ 1.6 ft (0.5m) | IP65 and IP68 sealing; <br> 500 tumbles @ 1.6 ft (0.5m) | Now completely waterproof with dual IP65/IP68 sealing; improved tumble spec for enhanced ruggedness. |
| **NEWER, FASTER PLATFORM** | | | |
| **Platform** | Qualcomm® Snapdragon 660 octa-core 1.8 or 2.2 GHz <br> Support through Android 14 | Qualcomm® 5430 hex-core 2.1 GHz <br> Support through Android 16 | Newer generation Qualcomm platform can power the most demanding healthcare applications. |
| **Memory and storage** | 3 GB RAM/32 GB Flash <br> MicroSD up to 128 GB | HC25: 6 GB RAM/64 GB UFS Flash; HC55: 8 GB RAM/ 128 GB UFS Flash <br> HC25/HC55: MicroSD up to 2 TB | At least twice the RAM, two or four times the Flash and eight times more expandable storage for better app performance. |
| **LATEST WIRELESS TECHNOLOGIES** | | | |
| **Wi-Fi** | Wi-Fi 5 | Wi-Fi 6/6E[2] | Wi-Fi 6E offers 4x the bandwidth, 4x higher capacity and 75 percent lower latency than Wi-Fi 5; workers get the fastest, more reliable connections. |
| **WAN** | 4G | 5G, Private 5G | 5G provides faster downloads and lower latency; Private 5G enables seamless connectivity in large medical campuses and the latest collaboration advancements. |
| **MORE VERSATILITY** | | | |
| **Integrated barcode scanner** | Optional SE4100 <br><br> Barcode scanning available via camera | HC25: SE4720 on select SKUs[1] Barcode scanning available via camera <br><br> HC55: SE4720 (all SKUs) | More advanced scan engine with better motion tolerance, wider working range and higher resolution sensor — for faster, easier scanning. |
| **Cameras** | 13 MP rear/5 MP front | HC25: 16 MP rear <br> HC55: 16 MP rear/5 MP front | Higher resolution rear camera for greater image detail. |
| **Battery** | Removable | HC25: Removable <br> HC55: True hot swap | With the HC55's true hot swap, users can change batteries without impacting device functionality — no missed calls, no missed notifications, no lost data. |
| **BT BLE battery** | No | Standard | Enables tracking of devices that are powered down or out of battery (Device Guardian license required). |
| **Audio quality** | Basic audio | Premium audio, HD Voice, Zebra AI noise suppression | Enhanced audio quality helps ensure crystal clear voice on every call, even if workers are in a noisy environment. |

1. Integrated scan engine not available on HC25 in North America; no scanner option available on select HC25 SKUs for Rest of World
2. Wi-Fi 6E available on HC25 with Zebra DNA Enterprise license upgrade
