# SETTING A NEW STANDARD IN PRINT SOLUTIONS

In today's business landscape, efficient and reliable print solutions are essential. Honeywell leads the way with comprehensive print solutions tailored for logistics, retail, manufacturing, and healthcare industries.

Positioned to evolve into a one-stop shop, our portfolio includes high-performance hardware, capability-enhancing accessories, and specialized media from top suppliers. These additions empower our printers to address a wider range of use cases, offering enhanced functionality and adaptability. Our solutions are compatible with both proprietary and third-party enabling software,

with partnerships that include industry leaders such as SOTI. These collaborations ensure our offerings deliver unparalleled functionality, ensuring versatility and reliability while creating opportunities for seamless integration.

In a rapidly changing marketplace, our adaptability stands out. We leverage advanced technology and strategic alliances to deliver innovative, cost-effective solutions for dynamic environments.

As organizations strive to optimize costs while maintaining quality, our competitively priced products, enhanced configuration tools and diversified language

support ensure enhanced performance and seamless integration when transitioning from older models or different systems, minimizing downtime.

With a focus on flexibility and reliability, Honeywell printers integrate effortlessly across sectors. Whether for high-volume industrial applications or customized desktop solutions, our products provide the performance and durability businesses need for effective operations. By incorporating remote troubleshooting and innovative configurations, we enhance the user experience, empowering businesses to achieve operational excellence and maintain a competitive edge.

# PRINT BEST SELLERS

Honeywell's print portfolio embodies innovation and reliability, optimizing labeling workflows across industries. Advanced technology enhances operational efficiency in industrial, desktop, and mobile applications, maximizing return on investment.

At the heart of our offering is Honeywell Printer Edge™, a powerful all-in-one printing platform that simplifies printing with an intuitive interface and effortless setup, delivering consistent, high-quality output.

Printer Edge™ is compatible with multiple non-native printing languages and offers tools for comprehensive control over print operations. Its user-friendly design enhances security and performance, while providing full visibility into your printer network.

Empower your business with Printer Edge™, where simplicity meets efficiency in print management.

# INDUSTRIAL PRINTERS

Honeywell industrial printers stand out for their robustness and capability to deliver exceptional performance around the clock. Built to endure the most demanding environments, these printers are built with advanced engineering and are recognized for their durability and reliability. The industrial label printer family includes features such as error-proof labeling, easy programmability, and advanced networking connectivity. Additionally, they support security measures and incorporate RFID and liner-less technology, catering to both light-volume and high-demand printing applications. With capabilities to manage various applications, from simple labeling to complex printing demands, Honeywell's industrial printers are essential for businesses aiming to streamline workflow while maintaining high-quality output.

# PRINTERS

Honeywell desktop barcode printers offer versatile solutions that meet a wide range of application needs, from economical low-volume tasks to robust, industrial-strength printing operations. They are designed to be highly intuitive and efficient, making them ideal for a variety of light-duty label, ticket, and tag printing applications. Their diverse configurations allow businesses to choose a model that seamlessly integrates into their environment, enhancing operational productivity. Quiet and compact, Honeywell desktop printers maintain reliability and performance, ensuring that users can depend on them for consistent output without interruption.

# MOBILE PRINTERS

Designed specifically for the on-the-go workforce, Honeywell's mobile printers deliver rugged and dependable printing solutions wherever needed. These printers are equipped to handle harsh field conditions, from exposure to dirt and moisture to temperature extremes and accidental drops. The energy-efficient, long battery life designs ensure that mobile workers can enjoy uninterrupted printing capabilities throughout the day, maximizing uptime and operational efficiency. Whether for receipt or label printing, Honeywell mobile printers empower users with the flexibility and durability necessary to perform their tasks effectively in dynamic environments.

# HONEYWELL OPERATIONAL INTELLIGENCE

Honeywell Operational Intelligence is a SaaS solution that uses advanced insights and analytics to proactively identify operational issues, take action to enhance printer solutions, and improve ROI:

- Find missing devices
- Improve accountability with check-out/check-in feature
- Reduce mobile worker disruption from battery issues
- Proactively monitor device data points for anomalies
